

# Lakeland Paints

## PRODUCT ADVICE

### DEEP HOLE FILLER - VOC FREE

Lakeland paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. Lakeland paints contain none. As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies..

**Where To Use:** On interior walls and ceilings. A powder filler with excellent lump-free mixing and good adhesion. Will not shrink or crack and is easy to sand down. Apply up to one inch deep in one application.

**Availability:** In 1 litre recyclable plastic containers.

**Drying Time:** Touch dry in 60 minutes - recoat if needed after 8 hours.

**Preparation & Application:** Ideally wet the surface slightly before filling. Rub down glossy surfaces and touch in nail and screw heads with oil based paint. Always add the powder to the water. To mix, add 2.5 parts powder to 1 part water. Stir for about 1 minute until a smooth consistency. Normally 1 coat is required. Avoid application in direct sunlight and temperatures below 5°C and above 25°C.

**Clean Up:** Wash tools in warm water immediately after use.

**Storage:** Keep lidded. Use within 12 months of purchase. We accept no responsibility for the deterioration of contents or packaging after this.

**Disposal:** Excess product can be left to fully cure and disposed of with household refuse.

**Health & Safety:** Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water. After contact with skin, wash off with water. Keep out of reach of children. Safety Data Sheets are available on request.
