PRODUCT ADVICE

ECOS FLAME RETARDANT PAINT to ASTM-E84 Class 1

ECOS paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. ECOS paints contain none.

As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where to use:

Interior walls and ceilings. Lakeland Flame Retardant Paint gives a pleasant, wipeable flat finish. Suitable for all flame retardant/fire retardant applications including enclosed vertical exitways.

ASTM E - 84 class 1 rated.

Availability:

In 5 litre tins in all 180 Lakeland colours plus white. Colour matching available upon request. Available direct from Lakeland Paints.

Coverage: 60m² per 5 litre/per coat depending on surface porosity

Drying time: Touch dry in 1 to 2 hours. Recoat after 4 hours.

Sheen level: <8%

Preparation:

Stir gently and thoroughly before use. 2 coats by medium pile roller is generally best. DO NOT THIN. Avoid use in direct sunlight or temperatures below 5 degrees C and above 25 degrees C. Can be airless sprayed. Can be brushed.

Storage:

This product is water based and must be protected from frost and extreme temperatures. Use within 12 months of purchase. We accept no responsibility for the deterioration of contents or packaging after this.

Disposal:

Though water based, please do not dispose of into watercourses. Waste materials must be disposed of in accordance with the Environmental Protection Act 1990 and relevant regulations made there under. For further information contact the Environment Office at your local council.

Health & Safety:

Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water. After contact with skin wash off with water. Keep out of reach of children.

Safety Data Sheets are available on request.
