

LAKELAND *paints*

PRODUCT ADVICE

LAKELAND M22 CONCRETE SEALER

LAKELAND paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. LAKELAND paints contain none.

As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where to use:

An anti-dusting solvent-free consolidating washable interior sealer for concrete floors - garages, workshops, industrial premises etc. (This VOC-free product has a slight smell following application for approx 30 mins)

Availability:

In 1 and 5 litre plastic containers. Available direct from Lakeland Paints.

Coverage:

Depends on the porosity of the concrete but in most applications, the coverage (for a full two coat system) will be in the range 20-50 M2 / 5L.

Drying time: 1-2 hours

Preparation: Ensure that the floor is dry and dust free, non-greasy, and clean.

Application:

Stir the product well before use. Do not apply in direct sunlight or below 5°C or above 25c. Apply by brush, roller etc. Spread thinly so as to give an even coverage; do not allow ponding of the product, spread out to cover thinly. Allow to dry thoroughly before recoating. Second coat apply as before. Apply thinly, do not allow ponding.

Clean up:

Clean brushes and rollers with warm soapy water.

Storage:

This product is water based and must be protected from frost and extreme temperatures. Use within 12 months of purchase. We accept no responsibility for the deterioration of contents or packaging after this.

Disposal:

Though water based, please do not dispose of into watercourses. Waste materials must be disposed of in accordance with the Environmental Protection Act 1990 and relevant regulations made there under. For further information contact the Environment Office at your local council.
