

LAKELAND *paints*

PRODUCT ADVICE

LAKELAND MDF PASSIVATING PRIMER WHITE

LAKELAND paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. LAKELAND paints contain none.

As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where to use:

Interior bare MDF & other similar wood products including ply, prior to painting. Absorbs formaldehyde & other VOCs down to approx 1 ppm

Availability:

In 1 and 5 litre tins. Available direct from Lakeland Paints.

Coverage: Up to 60m² per 5 litre/per coat
