Lakeland Paints

PRODUCT ADVICE

LAKELAND MATT WALL PAINT

Lakeland Paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. Lakeland paints contain none. As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where To Use: Suitable for interior walls and ceilings. Lakeland Matt gives a pleasant, washable flat matt finish. (For areas of very high humidity, eg. bathrooms - Lakeland Eggshell is recommended).

Availability: In 5 litre tins in all 372 Lakeland colours plus white. Colour matching available upon request. Available direct from Lakeland Paints.

Coverage: Up to 60m^2 per 5 litres / per coat.

Drying Time: Touch dry in 1–2 hours, recoat in 4 hours.

Sheen Level: <6%.

Preparation: Surfaces should be sound, clean, dry and free from grease.

PLASTER - on bare plaster / plasterboard prime with Lakeland Plaster Sealer or Wall Primer.

Application: Avoid application in direct sunlight and temperatures below 5°C and above 25°C. Please check for colour accuracy prior to use as we will not be liable for decorating caused as a result of an incorrect colour being applied. Stir thoroughly before use. A medium pile roller is best - apply two coats using a brush or roller. Do not thin.

AIRLESS SPRAYING - good results can be achieved by the set up of 18 thou 65° angle tip using a pressure of 2000–2700 psi.

Lakeland Paints, Unit 19, Heysham Business Park, Middleton Road, Heysham, LA3 3PP.
