

LAKELAND *paints*

PRODUCT ADVICE

LAKELAND PVA (formaldehyde-free)

LAKELAND paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. LAKELAND paints contain none.

As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where to use:

Lakeland PVA is a primer - sealer and bonding promoter which is ideal as a dust proofer with excellent durability and quick drying adhesion. PVA is often used on porous or very porous surfaces to partly seal, consolidate and promote paint and/or tile adhesion. Lakeland PVA is water based, Formaldehyde-Free & totally non toxic.

Availability:

In 1 and 5 litre tins. Available direct from Lakeland Paints.

Application:

As a sealing primer for aiding adhesion onto bare cement render or plaster, apply one coat of very diluted PVA - dilution rates are approx 1:5 PVA/Water. Do not use neat or stronger as this can actually interfere with best adhesion.

Coverage:

Depends on porosity but generally (diluted) the coverage will be in the range 30-80 m²/5L. Clean equipment with warm water.

Storage:

Lakeland Paints, Unit 19, Heysham Business Park, Middleton Road, Heysham, LA3 3PP
01524 852371 www.lakelandpaints.co.uk

This product is water based and must be protected from frost and extreme temperatures. Use within 12 months of purchase. We accept no responsibility for the deterioration of contents or packaging after this.

Disposal:

Though water based, please do not dispose of into watercourse. Waste materials must be disposed of in accordance with the Environmental Protection Act 1990 and relevant regulations made there under. For further information contact the Environment Office at your local council.

Health & Safety:

Avoid contact with the skin and eyes - wash off splashes with water. Keep out of the reach of children.
