

LAKELAND *paints*

PRODUCT ADVICE

LAKELAND WALL PRIMER

LAKELAND paints offer a completely unique range of decorative finishes. It's the only range of totally solvent-free paints available anywhere in the world today, independently tested to reveal 0.0% VOCs (Volatile Compounds).

VOCs are a major contributor to low-level atmospheric pollution and the use of these compounds leads to global warming. In addition, the use of solvent-based paints is a major cause of, asthma, allergies, sick building syndrome, chemical sensitivities and the general flu-like symptoms reported by many people using conventional paints, including Matt and Silk wall paints.

Most paints currently on sale, both gloss and emulsion, contain solvents and VOCs. LAKELAND paints contain none.

As a result they are ideal for use throughout the home, particularly children's bedrooms, nurseries and kitchens, especially if you or a member of your family is chemically sensitive or suffers from asthma or allergies.

Where to use:

Interior Walls & Ceilings - for priming & sealing dry bare plaster & plasterboard prior to painting.

Availability:

In 5 litre tins. Available direct from Lakeland Paints.

Coverage: up to 50m² per 5 litres/per coat (depending on surface porosity)

Drying time: This is highly dependent on the conditions of use, but normal drying is in the range of 1 - 4 hours (depending on the porosity of the plaster & local ventilation & temperature).

Sheen level: n/a

Preparation:

Surfaces should be sound, clean, dry, non-dusty and free from grease.

Painting:

Do not paint in direct sunshine or temperatures below 5°C or above 25°C.

Stir thoroughly before use. Apply by brush, roller etc. Spread so as to give an even coverage. Allow to dry thoroughly before over-painting.

Clean up:

Clean brushes and rollers with warm soapy water.
